eFiling Application Release Build 3 4 1

The below eFiling application enhancement and bug fixes will be available as of Saturday, June 2, 2012.

"Use eForm Template" enhancement

The "Use eForm Template" functionality is designed for quick and easy access to frequently used forms from within the eFiling application. Templates are available for efiling documents into an existing case or to submit proposed orders for in-court judicial review and e-filing within specially equipped courtrooms (i.e., eOrders courtrooms). Currently, the eOrders functionality is available for Juvenile Offender cases only.

The eForm templates now available for e-filing into an existing case are:

- Note for Motion Docket Kent Regional Justice Center Only
- Note for Motion Docket Seattle Courthouse Only

Additional templates will become available soon.

For additional information, click the eFiling application "Use eForm Template" process 'help' link provided in the application's Instructions sidebar.

Bug Fixes for PDF documents

Application upgrades for the processing of e-filed PDF documents was implemented to better enable the Clerk's processing of a particular type of PDF document received. The enhancements are unnoticeable by eFiling application users and do not require a change to the user experience or process.
